MARK REGAN

GRAPHIC DESIGNER

VISUAL COMMUNICATOR

ALL AROUND GREAT GUY

Design

Thanks for viewing my digital portfolio. Over the years I have done many design projects. I can design anything that needs to be viewed for print or on the web. I began my design career way before Apple released the Macintosh in 1984. I learned to create graphics with paintbrushes, rapidograph pens, airbrush, pastels, crayons and pencils.

But this portfolio is designed to give you a sense of what I can do for you.

Everything I do is custom, so you won't be seeing your competition using the same graphics as your firm, school or company.

Please enjoy my work and comment if you have the time to spare.

Print Instruction Manuals,
Capability Brochures, and Annual Reports

Annual Report

This was my award winning annual report for Saint Peters Prep.

This won my firm a JSPERA award and I felt really good about that. Even though the job wasn't created to win an award, it was to help Saint Peter's Prep raise money from their alumni. That is the real award, when the former students remembered their alma mater and donated to help the future generations attend and fulfill their education dreams and desires.

2019 Award Winning Poster

I designed and submitted this poster for a contest held at the DMV. And I won!

I came up with the **EQUALITY = QUALITY** slogan because it's a great message and it's graphically clear and transformative. It will be a smooth motion graphic image when I make the **E** fade into the equal sign and loop it to be a continuous playing graphic image.

Plus this would work great on T-Shirts, and other give aways if they want to pursue that avenue.

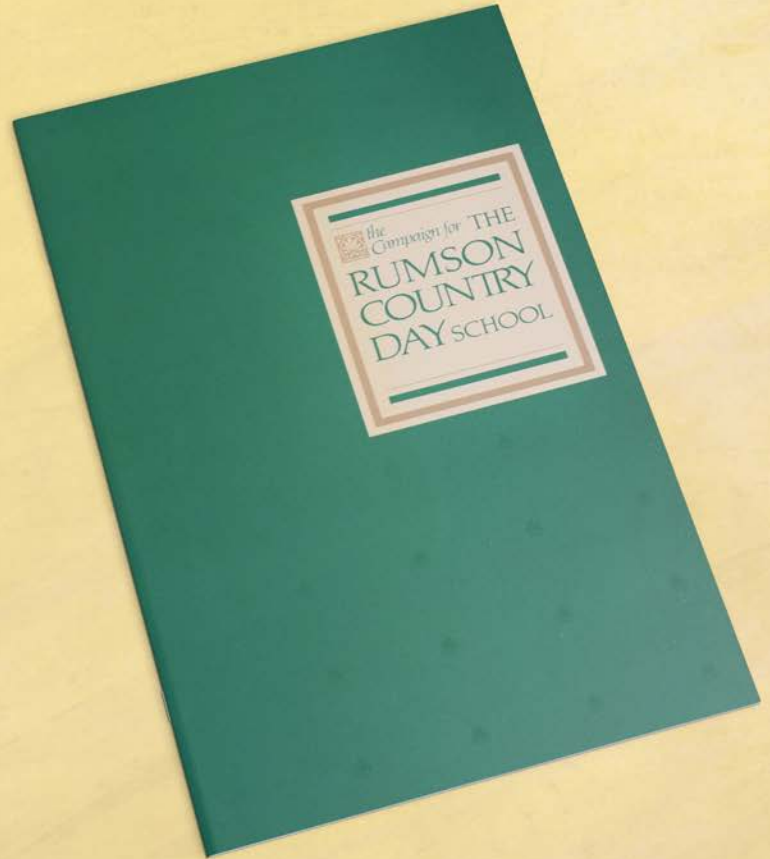

Annual Report - Fundraising

This was one of my favorite design projects and was done before the computer. Mechanicals were created with typeset type, rubber cement, Xacto knives, overlay film and lots of experience and creativity.

This was a two color print job. The charts were created with Rapidograph ink pens, T-Squares, angles and rulers.

One chart was a pencil divided to show the percentage of donations and anticipated needs for the school.

Today, 4 color printing is sometimes less expensive than 2 color printing. Yes, we always watch the bottom line & keep budgets in check.
